

# JAM

by APOGEE

## QuickStart Guide

## Using JAM with an iPad

1 Plug JAM into your iPad using the provided iPad dock cable

2 Plug your guitar into JAM's 1/4" input

3 Check the status light on JAM, it should be **Blue**

● **Blue** - JAM is connected but not ready

● **Green** - JAM is connected, ready and working with your software

● **Red** - Your gain is too high, adjust the gain using the Gain Control Knob on the side of JAM

4 Start up GarageBand and choose New Song (JAM's status light should turn to green)

5 Choose Guitar Amp

6 To hear your track, turn Monitor ON by clicking

and following instructions

7 Plug your headphones into iPad's headphone output or just listen through iPad's built-in speakers

8 Click the Record button

and you are recording with JAM!

## Using JAM with a Mac

1 Plug JAM into your Mac using the provided USB cable

2 Plug your guitar into JAM's 1/4" input

3 Check the status light on JAM, it should be **Blue**

● **Blue** - JAM is connected but not ready

● **Green** - JAM is connected, ready and working with your software

● **Red** - Your gain is too high, adjust the gain using the Gain Control Knob on the side of JAM

4 Start up GarageBand, Choose New Project > Electric Guitar (JAM's status light should turn to green)

5 Name the Project and save it on your hard drive

6 Go to GarageBand > Preferences > Audio/Midi > Choose **JAM** for Audio Input  
Choose **Built-In Output** for Audio Output

7 Plug your headphones into your Mac's headphone output or just listen through your Mac's built-in speakers

8 To hear your track in GarageBand, click to turn monitoring on

9 Click the Record button and you are recording with JAM!
